

Cells - Constinent

A new world, A new place  
To live and do,  
To do and be content.

A new world, gives a new language.  
A new place gives other ways of  
living.

A new world, a new language  
the old has been done and proved  
to be history.

With languages based on symbols,  
sounds, pictures.

A language giving the key to  
past times.

May the future world be happy  
with living peacefully.

Seeing the art of war as a story  
that has gone and will not  
relive.

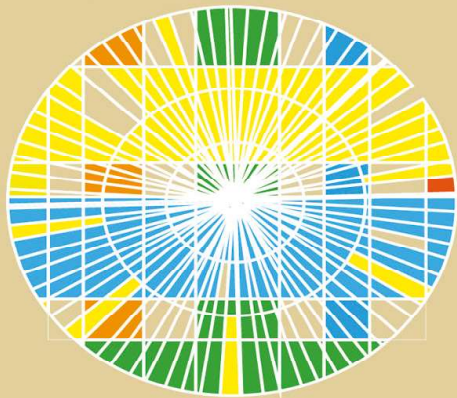

A way of life is to live at the  
moment.

The cells of life. A creation of  
analysing and writing the  
stories of science.

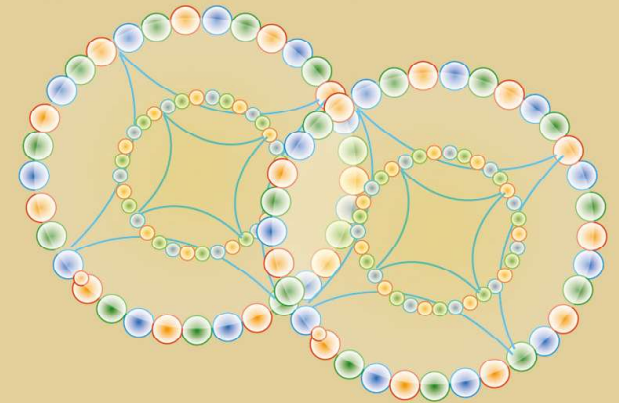

Sciences of our own existence.  
May the day come that peace  
is like the sun, pervading all.

Cells - Radient

Cells - Xthroughs

Cells - Pervading
